## EXPERIENCE

### HACKATHON

Cosmolligence (2<sup>nd</sup> Rank)

**Worked as a front-end developer**

### YOUTUBE

Managed and grew three YouTube channels, accumulating over 53,000 subscribers collectively, demonstrating effective content Creation, audience engagement, and management skills

## PROJECTS

### Damage Detection and Segmentation - Object Identification

 My Role: As a Frontend Developer, I played a pivotal role in bridging the gap between the complex AI/ML model and the end users. I crafted an intuitive and user-friendly interface that allowed individuals to interact with the model effortlessly. The frontend I designed and developed acted as a seamless translator between human needs and the AI's capabilities.

## EDUCATION

### Indian Institute of Technology (ISM), Dhanbad — *B.Tech ESE*
